

Ailun Privacy Screen Protector Compatible for iPhone 12 pro Max 2020 6.7 Inch 2 Pack Anti Spy Case Friendly Tempered Glass Review-2021

[Read Customer Reviews](#)

WORKS FOR iPhone 12 pro Max 2020 (6.7 Inch Screen) tempered glass screen protector.

Featuring maximum protection from scratches, scrapes, and bumps.

Specialty:to enhance compatibility with most cases, the Tempered glass does not cover the entire screen. HD ultra-clear rounded glass for iPhone 12 pro Max 2020 is 99.99% touch-screen accurate. 99.99% High-definition clear hydrophobic and oleophobic screen coating protects against sweat and oil residue from fingerprints.

High Privacy: Keeps your personal, private, and sensitive information hidden from strangers,screen is only visible to persons directly in front of screen.Good choose when you are in the bus,elevator,metro or other public occasions.(Note:Due to this privacy cover will darken the image to prevent the peeking eyes near you,you need to turn your device display brightness up when use it.)

Online video installation instruction: Easiest Installation - removing dust and aligning it properly before actual installation,no worrying about bubbles,enjoy your screen as if it wasn't there.iPhone 12 mini Tempered Glass Screen Protector

Frequently Asked Questions:

1.The flexibility of the Glass Screen Protector is just the same as the plastic material,Is it made of tempered glass or plastic?

This screen protector is a real tempered glass.The plasticly flexibily is the exact reason why we call it tempered glass screen protector.Tempered or toughened glass is a type of safety glass processed by controlled thermal or chemical treatments to increase its strength compared with normal glass.

2.It can't tell it's Glass or Plastic by the appearance and we don't have the high-tech laboratory

Ailun®

equipment at home, so what could we as a customer do to identify it?

Well, there does have one simple, quick and cost-effective way to run a test all by yourself, and it's super accurate. As the basic scientific fact, the Melting Point of most plastic is at between 160 and 210 degrees Celsius while the glass material is at least over 1400 degrees Celsius, so is there a lighter around?

3. Does it come with a cleaning wipe to use prior to placing on the phone?

Yes, the package includes: 4*Guide Stickers, 2*Wet Wipe&2*Dry Wipe, 2*Dust Absorber

4. Why the Screen Protector is so dark, I was unable to see my screen?

This Screen Protector is privacy screen protector, due to this privacy cover will darken the screen to prevent the peeping eyes near you, you need to turn your device display brightness up when use it

5. How can I remove a cracked glass screen protector?

Lift the screen protector with the card from any corner of the screen protector. Once the corner has been lifted off the device, hold the corner and remove slowly. (If you would ever find CHIP or CRACK on screen protector, for your safety, please wear glove to remove screen protector gently to avoid any possible further damage or inquiry.)

6. Why it is smaller than the actual screen of my device?

It is for case friendly, the product is designed to be slightly narrower on both sides to fit for most of phone cases in the market, and this minimizes the chances of bubbles, peeling, and cracking.

7. How can I remove bubbles?

Before placing the screen protector, first clean the screen by using kits in the package. If there are bubbles, please try to press the bubble by using your finger with a little force, and try to use a ruler or a credit card to help you with the problem, but a thin cloth pad is needed on the surface of the screen to avoid scratches the protector.
