

DampRid Fresh Scent Hanging Bag Absorber for Closets Traps Excess Moisture for Fresher, Cleaner Air, 3 Pack (16 oz. ea.) Review-2021

[Read Customer Reviews](#)

DampRid Hanging Bag Moisture Absorber attracts and traps excess moisture from the air. By trapping excess moisture, these bags eliminate musty odors creating fresher, cleaner air. The hanging bag design is ideal for closets, storage cabinets, the kitchen pantry, wherever stagnant, damp air is a problem.

3 Fresh Scent bags are included in each box, each filled with 16 ounces of moisture absorbing crystals.

To use, simply hang in the desired area. Dispose once moisture absorbing crystals have fully dissolved. Indoor air that's as fresh as the outdoors.

What is DampRid?

Think of DampRid as a dehumidifier that doesn't need electricity. It's the convenient, all-natural way to absorb excess moisture in the air that can cause stale, musty odors, while preventing damage to your valuable possessions. DampRid's crystals absorb excess moisture in the air to create and maintain the optimal humidity level in your home, storage areas, cabin, boat, car, RV or wherever moisture is a problem.

How it works

DampRid Hanging Moisture Absorbers eliminate excess moisture that can cause damp-feeling fabrics and damage clothes and leather goods. DampRid also eliminates the unpleasant, musty odor caused by moisture, and fragrance products leave a light, pleasurable scent in its place.

Living Room. Laundry Room. Bedroom. Bathroom

DampRid won't dry the air excessively to damage plants, furniture or household goods.

DampRid Hanging Moisture Absorber can be used in closets, bathrooms, laundry rooms, pantries, storage and anywhere excess moisture and stagnant air are a nuisance.
