

KontrolFreek FPS Freek Galaxy White for Playstation 4 (PS4) and Playstation 5 (PS5) | Performance Thumbsticks | 1 High-Rise, 1 Mid-Rise | White Review-2021

[Read Customer Reviews](#)

INCREASED ACCURACY - Mixed height combo for faster target acquisition and increased precision on the right, as well as better control and maneuvering on the left

IMPROVES COMFORT & GRIP - Non-slip, proprietary rubber compound offers exceptional grip and requires less force which reduces wrist, hand and thumb fatigue

ONE HIGH-RISE (CONVEX) THUMBSTICK - That adds 10.0 mm for increased accuracy on right analog

ONE MID-RISE (CONVEX) THUMBSTICK - On the left analog for enhanced control with in-game movement while adding a nominal height of 6.5 mm

VERSATILE - The added grip and comfort works well across your entire library of games and protects stock thumbsticks from wear and tear *packaging may vary

Our story
How we got our start?

KontrolFreek started when one of us wanted to be a better gamer and invented the world's most advanced thumb grips - Performance Thumbsticks. For over a decade, we've blended science and the highest-quality materials into products that give gamers a competitive edge and a better experience.

What makes our product unique?

Headquartered in Atlanta, GA, our Performance Gaming Gear is designed in the USA, and Performance Thumbsticks are made in the USA. Our product lines combine the latest in ergonomics and advanced materials to maximize your comfort and precision while gaming.

Why we love what we do?

KontrolFreek is about more than just Performance Gaming Gear. Our passion is supporting like-minded gamers in their quest for greatness. This is why we created FreekNation, a global community of 4M+ determined and ambitious gamers worldwide. Join us to level-up your game.
