

**Nilight 50026R Digital Tire Inflator Pressure Gauge, 250 PSI Air Chuck and Compressor Accessories Heavy Duty with Rubber Hose and Quick Connect Coupler for 0.1 Display Resolution, 2 Year Warranty Review-2021**

[Read Customer Reviews](#)

**ALL-IN-ONE Feature:** The LED backlit screen features measurements in PSI, KPA, Bar, and Kg/cm<sup>2</sup>; Includes an inflation gun, chuck, gauge, Thread seal tape roll, and bleed valve, all in one unit; Compatible with 1/4" NPT air compressor's output

**ACCURACY:** Performance tested & calibrated highly accurate to 1% full scale range with display resolution of . 1 for maximum accuracy; features bright 0-250 PSI LCD display that automatically shuts off after 2 minutes of inactivity

**SUPERIOR CONSTRUCTION:** Built of high quality, heavy duty steel and brass components that provide lasting performance; Use of all vehicles, such as car, SUV, truck, motorcycle, bicycle (with Schrader valve) etc

**INSTANT ON DISPLAY:** Built-in LCD backlit display for low light conditions. Get best precise measurement will be within +/-1% of this Pressure range (0-200 psi), Resolution (0. 1 psi). Max pressure 250 psi max

Package includes: inflation gun, thread seal tape roll, valve core tool, 4 x valve caps, 2x Replacement ring, a User Manual

Nilight is one of the famous brand that dedicated to providing innovative, cost-effective and quality products. We have been specialized in automotive products and parts for many years. Constant improvement and innovation is our eternal aim.

Nilight Digital Tire Inflator with Pressure Gauge 250 PSI

Air Chuck with 4 Measurement Units

The Nilight Digital Tire Inflator Gauge makes filling tires extremely easy when using an air compressor. Instead of filling a tire, check the pressure, adjusting, checking, and repeating over and over again, simply fill the tire to the exact pressure you want. Fill a tire to specification twice as quickly or even faster by using fewer instruments. Save time and just fill it right the first time.

Measurement Units: PSI, KPA, Bar, Kg/cm<sup>2</sup>

Accuracy: +/-1% , Display Resolution: 0.1 PSI

Display Type: LCD , Auto Power-Off: 20 Sec

Operating Temperature: -4<sup>o</sup>F to 122<sup>o</sup>F

Compatibility: 1/4" NPT air compressor Hose / Air Hose Quick Connect Coupler

Auto Wake-up when sense pressure: Yes

High Flow Air Hose (Installed): 12.5"

## Features

### Inflating Tires

The digital tire inflator gauge makes filling tires extremely easy. Get this tire gauge well connected with an air compressor and your tire valve, then inflate your tire by pushing inflation trigger continuously, until pressure reaches the standard. Fill a tire twice as quickly or even faster by using fewer instruments. Simply press the handle of the tire inflator gauge down, the tire will be inflated to the exact pressure you need on your first try!

### Pressure Check

Unscrew the end caps on your tires' air valves. Press the tire gauge onto the valve, then press the "ON" button to check tire pressure.

And a bright backlit LCD display ensures clear readings in any light condition, even in darkness. Professionally calibrated to always return a reading within 1% of the exact pressure of your tire and 0.1 display resolution. No more guessing.

### Deflate Tires

Built-in air bleeder valve helps to quickly decrease pressure in overinflated tires. Decreasing the likelihood of flats, explosions, and crashes. Press the air bleeder valve to drain excessive air pressure.

Note: Don't count on the tire pressure tested during deflating. After deflating, the static tire pressure is the current pressure.

## Features

### Bright & Large LCD Screen

It can be used in totally dark places without any hassle reading the pressure. The battery Indicator reminds you battery condition so that you can replace the battery when the battery is low.

#### Better Auto-Locking

Upgraded heavy duty brass air chuck make it easier locking onto stem valves - No air leakage.

#### High Accuracy

Accurate within: +/- 1%, Pressure Range: 3-150 psi, Pressure Resolution: 0.1 psi, Four units of Measurement: PSI, BAR, KPA, Kg/cm<sup>2</sup>

#### Leakproof and Safe

Premium rubber protector safely guards LCD screen from any damages. The dial and main body of this tire gauge exclusively designed to be metal integrated closed into one unit to avoid any air leaking.
