[Read Customer Reviews](#)

Multi-surface teething makes this teether perfect for assisting in the eruption of front, middle and back teeth

When placed in the refrigerator Nuby's PurICE technology provides gentle cooling on baby's gums

Easy grip design is ideal for little hands and helps with coordination; Dual surfaced teether

Combines exercise for young hands, gums, and teeth

Age: 3 months and above; BPA Free Multi-surfaced teether

Learn through play! The Nuby IcyBite Keys teether is another innovation in the natural teething process; a toy which combines exercises for young hands, gums, and teeth as well as providing visual stimulation for your baby.

### Multiple Teething Surfaces

This colorful toy is a dual surfaced teether. The tops of the Nuby keys are constructed of a soft textured material with offset surfaces, that assist in the eruption of teeth through infants delicate gums.

3 months +

Nuby's range of soothing teethers for three months and over help baby through this often - difficult teething time. The range includes teethers that soothe, clean and massage sensitive gums; ice and water - filled teethers to cool down your little one's sore gums; and hard and soft teethers to aid the cutting and strengthening of new teeth.

PurIce technology

The PurIce technology provides gentle cooling. The cool resilient bottom soothes and stimulates safely.
