Our Story

Like all great ideas, Kathy's started with a challenge " trying to find unique products for her paint studio and retail store in Lancaster, PA she owned with her mother for over 10 years.

Inspired by her desire for unique and creative items to fill her own shelves, Kathy took matters into her own hands, literally. She handmade the first 'primitive candle box' in 1997. Crafting the box by hand, taking care into each detail from the sanded edges to the type of ribbon tied on the wire handles, each was a work of passion.

Driven by her innate creativity and entrepreneurial spirit " the product that started it all was born. Review 2021, feedback 2021, promo code, discount code 2021, buy, picture, description, sale, price comparison, cheap, cheapest, value for money.
