R560DP Raindrip Container & Hanging Baskets Kit

Why Choose an R560DP Raindrip Container & Hanging Baskets Kit? - The Container & Hanging Baskets Kit combines the ease of automatic watering with the satisfaction of healthier and more vibrant looking plants. All Raindrip products are made with superior quality material and designed to last year after year.

Makes any level of Do It Yourself Gardener an "Instant Expert" - The timer and supply tubing are threaded just like a hose, making it easy to hook up, expand and customize your drip watering system. It is so easy that if you can attach a garden hose, you can install this system. This means that there are no tools required for installation. The kits can also be combined with all other associated Raindrip products.

Superior Quality - Professional quality Raindrip hose is made from linear, low-density polyethylene. UV inhibitors have been added to resist the effects of the elements. It can be left out year-round, buried or on the surface, in any weather.

Saves water and money - Drip irrigation systems can save up to 70% in water savings which calculates into money in your pocket. At the same time it provides healthier more vibrant plants. Much of the water waste is in water run-off and evaporation. When drip irrigation watering is directed to the root ball of the plant it eliminates the run off and most of the evaporation while providing the most useful and efficient watering method for the plant.

Drought Friendly - Raindrip products are specifically designed to save water. Drip Irrigation is a perfect solution for drought prone areas.

An economical and Time- saving Alternative to Sprinklers and Full coverage sprayers

Unlike traditional sprinklers, drip irrigation is inexpensive and highly effective. Our easy screw-in and snap together systems are an affordable alternative to standard sprinkler systems that require digging trenches and laying rigid pipe.

Warranty - When installed properly Raindrip products have a limited 5 year limited warranty with some exceptions.

Dedicated Customer Support - The friendly and knowledgeable Raindrip support staff is trained in all aspects of drip irrigation and are available to help should you ever require assistance.

Packaged for Shipping - All Raindrip products are subjected to shipping simulation tests to determine the optimum combination of packaging and shipping method to ensure you receive your item in excellent condition.

Design and Engineering Excellence - The Raindrip in-house staff of engineers makes sure all products meet customer expectations by being well made, easy to assemble, simple to operate, and

a pleasure to own.

Quality is designed into Raindrip products at every stage of the development process and is ensured by detailed inspections throughout the production cycle.

This Kit has Everything you need to get started with Drip Irrigation and Stop Watering by Hand - With only three simple steps you can set up the system with ease and simplicity.

Step 1 â€” Connect the timer and hose to the water source

Step 2 â€” Lay out the supply tubing

Step 3 â€” Attach the Pre-assembled waterlines and place next to your plants Review 2021, feedback 2021, promo code, discount code 2021, buy, picture, description, sale, price comparison, cheap, cheapest, value for money.
