Flexible Tiers

We can't take away all of life's troubles; we can however make hanging your pants easier. Tiers of this hanger are flexible, greatly smoothing the process of hanging multiple garments.

Rubber Coated Edges

Hangers can be dangerous. Edges of these hangers are coated with soft rubber, so you can safely use them without worrying about little people using the sharp edges to attack each other or unsuspected passersby getting caught in a rugged wire.

Nonslip Clips

Oh, for the joy of closing your closet after painstakingly putting it in order. Oh, for the pain of opening your closet to discover everything has slipped off. Well, these hangers come equipped with rubber-coated clips, thus ensuring they're entirely non slip.

Adjustable Clips

These will conform to you. Clips are easily adjustable, thereby neatly holding any type and size of clothing you own. No more creased trousers from clips that are too small or stretched skirts from ones that are too large.
