

## Tall Tee: Never Trust an Atom, They Make Up Everything | Funny Science T-Shirt Review-2021

[Read Customer Reviews](#)

Made in USA and Imported

TALL TEE CUT | Extra 3" longer on bottom compared to standard length fashion shirts

UNISEX MODERN FIT CUT | this shirt is slightly tapered to be a little less boxy than the old style of mass-market t-shirt. Nothing drastic, and most people wear the same size in our shirts as they do in all of their others, but you might go one size larger if you're on the fence. It is pre-shrunk, but like any high-cotton product, will still shrink slightly in the wash. Just because it's a tall tee doesn't mean it can't be a nice, modern fit

MICHIGAN ARTISTS & PRINTERS | this design was drawn and screen printed (silk screened) with pride by our skilled illustrators and printers in Ann Arbor. If you're ever in the area, stop by for a free tour and see how we make your apparel! Tagless tag is printed on fabric inside collar, you can't feel it.

SOFT FABRICS | This shirt is made of combed, ringspun cotton - meaning that the cotton fibers were refined further than mass market tees for a smoother final thread, spun into an ultra-fine 32 singles knit. The result is a buttery smooth, soft tee! These are mid-weight shirts - a bit lighter than your mass-market, thick gym class t-shirts, but substantial / not see-through. It's a nice balance between comfort and durability

TOP QUALITY INKS | We use QCM screen printing inks, manufactured in Pineville, North Carolina. These are high quality inks - vibrant and durable, and highly crack resistant. We use top of the line printing presses and ovens (to cure inks) made by M&R in Illinois

Our story  
How we got our start?

The Ann Arbor T-shirt Company grew from a dorm room project between two friends at the University of Michigan, to a couple of 22 year olds sleeping in a warehouse alongside their printing press, to a business with 50+ employees and a few dogs shipping apparel all around the world from Michigan!

What makes our product unique?

Most of our products are designed, printed, & embroidered completely in our Ann Arbor, MI factory. Our workers receive fair wages, healthcare, 401k matches, & meals. Machines, inks, & most inputs are U.S. sourced, & shirts mostly made of U.S. cotton. Producing in-house keeps quality up & prices low.

Why we love what we do?

Printing is where art meets life. We love bringing all of our customers' ideas, passions, and identities to life with ink and thread. We use higher quality apparel that doesn't break the bank, but which we love to wear ourselves, and take great pride in seeing how much our fans react to our stuff!
